FIELD TRIP FAQ

Can campers be placed together on the bus?

XL sessions have one bus so all campers registering the same week will be together. There are two buses for standard sessions that will be divided according to age. Please include your buddy request, including siblings, during registration. For campers with an age gap, please indicate if you prefer the younger or older bus.

Will you make exceptions to the age requirement for camp? No one younger than age 5 is permitted to enroll. Many destinations have a strict minimum age, and others may vary based on experience. Inquire for specific details.

What if my child is not a strong swimmer?

PFDs are worn canoeing, kayaking, and rafting. Before lake swimming, Wilderness Lifeguards conduct swim checks with all campers to determine level of ability. Many campers prefer to stay on the sandy beach or in shallow areas regardless of ability, and swimmers are not permitted to enter deeper water without skills verification and swim band identification.

Are parents able to join an activity of camp? Yes! Check out the Parent Field Guide for details.
